# POT GROWN PERENNIALS FOR IMMEDIATE PLANTING

Many of our patrons have been delayed with their spring planting and have heretofore had to wait until fall, thereby losing an entire year's growth.

For the convenience of the gardening public we have, therefore, prepared the following list of plants for delivery during June and July.

All plants listed are grown in pots and can be shipped by express immediately upon receipt of your order. The plants will continue to grow, blooming in season, not being harmed in the least by being moved.

For complete descriptions and cultural suggestions see our 1917 Heatherhome Seed and Plant Book. Copy sent free on request.
